

## Budapest Nephrology School

# NEPHROLOGY, HYPERTENSION, DIALYSIS, TRANSPLANTATION

Editors:

Thomas E. Andreoli, Eberhard Ritz, László Rosivall

**University of Toronto  
Vanderbilt University Medical Center  
Hungarian Kidney Foundation**

**2006**

# Content

In memory of Alexander von Korányi

**L. Rosivall**

Foreword

**T.E. Andreoli, E. Ritz, L. Rosivall**

Contributing authors

## **I. Background**

COMGAN and its Global Effort

**J. Dirks, S. Robinson**

Hungarian Kidney Foundation and Budapest Nephrology School

**S. MirzaHosseini**

## **II. Basic Science:**

Juxtaglomerular apparatus:morphological and functional correlations

**L. Rosivall**

Multi-photon imaging of the living kidney

**J. Peti-Peterdi**

Molecular mechanisms in renal phosphate handling: recent advances

**H. Murer, I.C. Forster, C.A. Wagner, J. Biber, N. Hernando**

Signaling mechanisms of angiotensin receptors

**L. Hunyady**

Iron homeostasis in chronic inflammation

**J. Balla, Gy. Balla**

Endothelial cell dysfunction: the syndrome in making

**M.S. Goligorsky**

Nitric oxide system and the kidney

**A. Iaina, N. Levin-Iaina**

The complement system and the kidney: interplays in health and disease

**J. Szebeni**

Molecular determinants of progressive fibrosis in the kidney

**M. Zeisberg, G.A. Müller**

Nitric oxide deficiency in chronic renal disease (CKD)

**C. Baylis**

Proteomics in renal diseases

**H. Dihazi, G.A. Müller**

Molecular pathomechanisms of membranous nephropathy : from bench to bedside

**P. Ronco, H. Debiec**

### **III. Hypertension:**

Role of the intrarenal renin-angiotensin system in hypertension

**M.C. Prieto-Carrasquero, L.G. Navar**

Genetic mechanisms in hypertension

**F.C. Luft**

Adventures in secondary hypertension

**F.C. Luft**

### **IV. Nephrology:**

Evidence-based medicine in nephrology

**K.S. Rabindranath, A.M. MacLeod**

Edematous states

**T.E. Andreoli**

The hyperkalemic syndromes

**T.E. Andreoli**

Poignant teaching points in electrolyte and acid-base misadventures

**F.C. Luft**

Approach to the patient with metabolic acidosis: emphasis on the ECF volume and the venous PCO<sub>2</sub>.

**M. Halperin, D. Rosenbaum, K.S. Kamel**

The pathophysiology of acute renal failure

**N. Lameire**

Analgesic nephropathy

**J. Nagy, I. Pintér**

Immunopathology of glomerulonephritis

**J.J. Weening**

Clinicopathology and pathogenesis of glomerular nephritis

**B. Iványi**

Idiopathic hypercalciuria in children

**Gy. Reusz**

Parathyroid hormone and markers of bone metabolism in nephrology

**H. Schmidt-Gayk, H. Reichel, H.J. Roth, C. von Gaudecker**

Renal bone disease - getting to the heart of the matter

**I. Mucsi, G. Hercz**

Nephropathy in type 2 diabetes - an update

**E. Ritz**

Obesity-associated metabolic syndrome - an underestimated risk factor of chronic renal disease

**A. Heidland, A. Klassen, P. Rutkowski, K. Sebekova, U. Bahner**

Mechanisms of lipid disturbances in chronic renal failure

**B. Rutkowski, M. Chmielewski**

Sleep disorders in patients with chronic renal failure

**M. Novák, M.Zs. Molnár, I. Mucsi**

New erythropoietic agents

**A. Więcek, J. Chudek**

## **V. Dialysis:**

Fundamental and clinical aspects of peritoneal dialysis

**R.T. Krediet**

Hemodialysis adequacy

**G. Schulman**

Differences in cardiovascular mortality rates among hemodialysis patients in USA, Europe and Japan – What are the reasons?

**M.K. Kuhlmann, N.W. Levin**

Travel of renal and dialysis patients

**S. Vas**

## **VI. Transplantation:**

Genetically determined underlying diseases and renal transplantation

**P. Hamar**

Current and emerging maintenance immunosuppressive therapy after kidney transplantation

**S. Goral**

Optimal monitoring of cyclosporine

**E.H. Cole**

Genetic factors for the progression of renal transplant dysfunction

**M. Fischereder**

Recurrent renal diseases in the kidney transplant induction

**J. H. Helderma**

## **VII. Technological advances**

Membranes in dialysis

**J. Vienken, H. Klinkmann**
